

1. Clone this github repository: https://github.com/iamsurjog/Konnichiwow_task.git
2. Read the README file for the instructions.
3. Make changes to the code and push it to your own repository called
<yourname>_Flashcards
4. No need to host the page
5. Follow this figma design:
<https://www.figma.com/design/PyKkKSQdRVga0PP35yjbdA/Konnichiwow-Internship-Task?node-id=0-1&t=U1yMsW4dzkQ4BwGM-1>
6. After completion of you project, replace the README file with your own README which should contain the path for each of the pages and how to run your code.
